SCR1060

Description

The SCR1061, the Poly-Pure 10, Polyester Knit Wipes are made from 100% polyester. Two edges are cut and ultrasonically sealed. These wipes are laundered and Double packed in a class 10 cleanroom. The metallic ion and extractable levels are extremely low. Class 10 compatible.

Description

The SCR1062, PolyPure 10, ULTRA Polyester Knit Wipes are made from 100% filament polyester. Four edges are ultrasonic cut and sealed. The structural character of the material allows for maximum absorbency and minimal abrasion resistance. These wipes are laundered and double packaged in a class 10 cleanroom. The metallic ion and extractable levels are extremely low. Class 10 compatible.

The SCR1063, PolyPure1 Polyester Wipes are made from continuous filament micro denier material. Four edges are ultrasonic cut and sealed. Highly absorbent and soft. Laundered and double packaged for extremely low particle counts. Class 1 compatible.
